

# Eastern Africa

## Overview

### Progress against global nutrition targets 2018

Sources: UNICEF/WHO/World Bank Group: Joint child malnutrition estimates, UNICEF global databases: Infant and Young Child Feeding, NCD Risk Factor Collaboration, WHO Global Health Observatory.  
Notes: The methodologies for tracking differ between targets. Data on the adult indicators are based on modelled estimates. See Appendix 1 of the 2018 Global Nutrition Report for details of the methods and sources used to assess progress towards global nutrition targets.

## Economics and demography

### Poverty rates (%) and GDP (PPP\$)

Source: World Bank 2018.  
Note: GDP = gross domestic product. PPP = purchasing power parity. n = 15 (poverty); n = 15 (GDP).

### Under-5 mortality (per 000 live births)

Source: UN Inter-agency Group for Child Mortality Estimation 2018.

### Population

Population (millions)	421	2017
Under-5 population (millions)	68	2018
Rural (%)	73	2017
>65 years (millions)	13	2018

Source: UN Population Division 2017.  
Notes: n = 18 (rural only).

## Underlying determinants

### Food supply

Source: FAOSTAT 2018.

### Gender-related determinants

Early childbearing: births by age 18 (%)	27	2015
Population density of health workers per 1,000 people		
Physicians	0.08	2016
Nurses and midwives	0.59	2016
Community health workers	0.35	2016

Source: UNICEF 2018.  
Note: n = 14.

Source: WHO's Global Health Workforce Statistics, OECD, supplemented by country data. n = 17

### Female secondary education enrolment (net, % population)

Source: UNESCO Institute for Statistics 2018. n = 7

### Drinking water coverage (% population)

Source: WHO/UNICEF Joint Monitoring Programme 2017. n = 17

### Sanitation coverage (% population)

Source: WHO/UNICEF Joint Monitoring Programme 2017.  
Note: n = 17

### Government expenditures (% total)

Source: IFPRI 2015. n = 10

# Eastern Africa

## Children (under 5) nutrition status

Under 5: wasting (%)

Sources: UNICEF/WHO/World Bank Group: Joint child malnutrition estimates.

Under 5: stunting (%)

Under 5: overweight (%)

Under 5 by household income: wasting (%)

Sources: UNICEF/WHO/World Bank Group: Joint child malnutrition estimates. n = 11

Under 5 by household income: stunting (%)

Under 5 by household income: overweight (%)

Under 5 by household location: wasting (%)

Sources: UNICEF/WHO/World Bank Group: Joint child malnutrition estimates. n = 12

Under 5 by household location: stunting (%)

Under 5 by household location: overweight (%)

Under-5 coexistence of wasting, stunting and overweight

Sources: UNICEF, Division of Data Research and Policy (2018), Global UNICEF Global Databases: Overlapping Stunting, Wasting and Overweight, New York, May 2018.  
Notes: Percentage of children under 5 years of age who experience different and overlapping forms of malnutrition. n = 16

# Eastern Africa

## Child feeding practices

Sources: UNICEF, Division of Data Research and Policy (2018), Global UNICEF Global Databases: Infant and Young Child Feeding, New York, May 2018. n = 13

## Children and adolescent (aged 5–19) nutrition status

## Adult nutrition status

## Dietary needs

Source: Global Burden of Disease, the Institute for Health Metrics and Evaluation.  
Notes: Men and women aged 25 and older. TMREL = theoretical minimum risk exposure level. n = 18

## Financial resources and policy, legislation and institutional arrangements

### Development assistance

Sources: Development Initiatives based on OECD Development Assistance Committee (DAC) Creditor Reporting System (CRS).  
Notes: ODA = official development assistance. Amounts based on gross ODA disbursements, constant 2016 prices. Figure includes ODA grants and loans, but excludes other official flows and private grants.

### National policies

Mandatory legislation for salt iodisation	9/18
Sugar-sweetened beverage tax	1/18
Food-based dietary guidelines	2/18
Multisectoral comprehensive nutrition plan	11/18

Sources: Global Fortification Data Exchange 2018; Sugar-sweetened data prepared using data from the NOURISHING database, academic references and market reports; FAO 2018; WHO Global database on the Implementation of Nutrition Action (GINA), 2nd Global Nutrition Policy Review.

### Targets included in national (nutrition or other) plan

Stunting	Anaemia	Low birth weight	Child overweight	Exclusive breastfeeding	Wasting	Salt intake	Overweight adults and adolescents
15/18	12/18	12/18	7/18	15/18	14/18	6/18	9/18

Sources: WHO Global database on the Implementation of Nutrition Action (GINA), 2nd Global Nutrition Policy Review.
