**World Health Assembly indicators: progress against global WHA targets**

**Under-5 stunting, 2015<sup>1</sup>**  
Off course, some progress

**Under-5 wasting, 2015<sup>2</sup>**  
On course

**Under-5 overweight, 2015<sup>1</sup>**  
Off course, no progress

**WRA anaemia, 2011<sup>2</sup>**

Notes: Currently it is only possible to determine whether a country is on or off course for five of the six WHA targets. The year refers to the most recent data available; on/off-course calculation is based on trend data.  
WRA = women of reproductive age. EBF = exclusive breastfeeding
