

## **Overview**

### **Burden classification**

#### There is insufficient data for the Global Nutrition Report to classify this country's burden

Sources: UNICEF/WHO/World Bank Group: Joint child malnutrition estimates, NCD Risk Factor Collaboration, WHO Global Health Observatory.

Notes: Thresholds for a country having the form or not: stunting in children aged under 5 years  $\geq$ 20%; anaemia in women of reproductive age  $\geq$ 20%; overweight (body mass index  $\geq$ 25) in adult women aged  $\geq$ 18 years  $\geq$ 35%.

### Progress against global nutrition targets 2018

**Under-5 stunting** 

**Under-5 wasting** 

**Under-5 overweight** 

**WRA** anaemia

No progress or worsening

**Exclusive breastfeeding** 

Adult female obesity No progress or worsening

Adult male obesity No progress or worsening

Adult female diabetes No progress or worsening

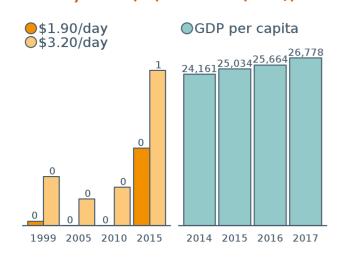

Adult male diabetes

No progress or worsening

Sources: UNICEF/WHO/World Bank Group: Joint child malnutrition estimates, UNICEF global databases: Infant and Young Child Feeding, NCD Risk Factor Collaboration, WHO Global Health Observatory. Notes: The methodologies for tracking differ between targets. Data on the adult indicators are based on modelled estimates. See Appendix 1 of the 2018 Global Nutrition Report for details of the methods and sources used to assess progress towards global nutrition targets.

## **Economics and demography**

### Poverty rates (%) and GDP (PPP\$)

Source: World Bank 2018. Note: GDP = gross domestic product. PPP = purchasing power

## Under-5 mortality (per 000 live births)

Source: UN Inter-agency Group for Child Mortality Estimation 2018.

## Income inequality

| Gini index score <sup>1</sup> | Gini index rank <sup>2</sup> | Year |
|-------------------------------|------------------------------|------|
| 30                            | 23                           | 2015 |

Source: World Bank 2018.

**Notes**: 0 = perfect equality, 100 = perfect inequality. Countries are ranked from most equal (1) to most unequal (155).

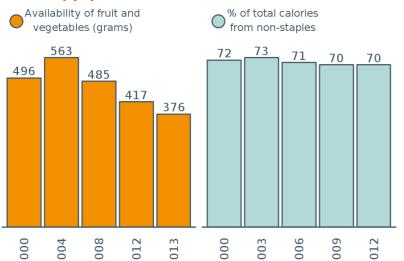

#### **Population**

| Population (000)         | 9,722 | 2017 |
|--------------------------|-------|------|
| Under-5 population (000) | 434   | 2018 |
| Rural (%)                | 29    | 2017 |
| ≥65 years (000)          | 1,856 | 2018 |

Source: UN Population Division 2017.

# **Underlying determinants**

## Food supply

Source: FAOSTAT 2018.

### **Gender-related determinants**

| Early childbearing: births by age 18 (%) <sup>1</sup> | NA   | NA   |
|-------------------------------------------------------|------|------|
| Gender Inequality Index (score*) <sup>2</sup>         | 0.26 | 2017 |
| Gender Inequality Index (country                      | 54   | 2017 |

Sources: UNICEF 2018; UNDP 2018.<sup>2</sup>

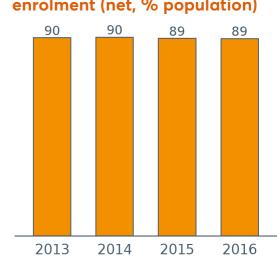

**Note**: \*0 = low inequality, 1 = high inequality.

## Population density of health workers per 1,000 people

| Physicians               | 3.09 | 2015 |
|--------------------------|------|------|
| Nurses and midwives      | 6.63 | 2015 |
| Community health workers | NA   | NA   |
