

## **Overview**

#### **Burden classification**

### The Global Nutrition Report classifies this country as experiencing two forms of malnutrition – overweight and anaemia

Sources: UNICEF/WHO/World Bank Group: Joint child malnutrition estimates, NCD Risk Factor Collaboration, WHO Global Health Observatory.

Notes: Thresholds for a country having the form or not: stunting in children aged under 5 years  $\geq$ 20%; anaemia in women of reproductive age  $\geq$ 20%; overweight (body mass index  $\geq$ 25) in adult women aged  $\geq$ 18 years  $\geq$ 35%.

## Progress against global nutrition targets 2018

**Under-5 stunting** 

**Under-5 wasting** 

**Under-5 overweight** 

**WRA** anaemia

Some progress

**Exclusive breastfeeding** 

Adult female obesity No progress or worsening

Adult male obesity No progress or worsening

Adult female diabetes No progress or worsening

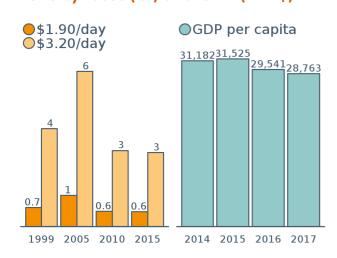

Adult male diabetes

No progress or worsening

Sources: UNICEF/WHO/World Bank Group: Joint child malnutrition estimates, UNICEF global databases: Infant and Young Child Feeding, NCD Risk Factor Collaboration, WHO Global Health Observatory. Notes: The methodologies for tracking differ between targets. Data on the adult indicators are based on modelled estimates. See Appendix 1 of the 2018 Global Nutrition Report for details of the methods and sources used to assess progress towards global nutrition targets.

## **Economics and demography**

## Poverty rates (%) and GDP (PPP\$)

Source: World Bank 2018. Note: GDP = gross domestic product. PPP = purchasing power

## Under-5 mortality (per 000 live births)

Source: UN Inter-agency Group for Child Mortality Estimation 2018.

## Income inequality

| Gini index score <sup>1</sup> | Gini index rank <sup>2</sup> | Year |  |
|-------------------------------|------------------------------|------|--|
| NA                            | NA                           | NA   |  |

Source: World Bank 2018.

**Notes**: 0 = perfect equality, 100 = perfect inequality. Countries are ranked from most equal (1) to most unequal (155).

### **Population**

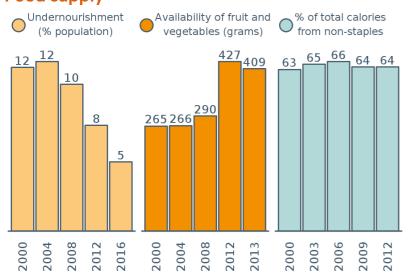

| Population (000)         | 1,369 | 2017 |
|--------------------------|-------|------|
| Under-5 population (000) | 91    | 2018 |
| Rural (%)                | 47    | 2017 |
| >65 years (000)          | 142   | 2018 |

Source: UN Population Division 2017.

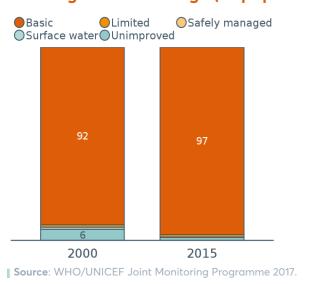

# **Underlying determinants**

## Food supply

| Source: FAOSTAT 2018.

**Drinking water coverage (% population)** 

## **Gender-related determinants**

| Early childbearing: births by age 18 (%) <sup>1</sup> | NA   | NA   |
|---|------|------|
| Gender Inequality Index (score*) <sup>2</sup>         | 0.32 | 2017 |
| Gender Inequality Index (country rank) <sup>2</sup>   | 72   | 2017 |

Sources: UNICEF 2018; UNDP 2018.<sup>2</sup>

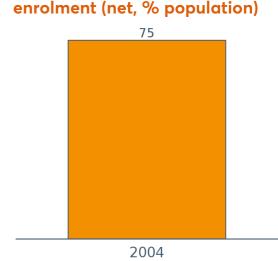

Note: \*0 = low inequality, 1 = high inequality.

## Population density of health workers per 1,000 people

| Physicians               | 1.82 | 2011 |
|--------------------------|------|------|
| Nurses and midwives      | 3.28 | 2011 |
| Community health workers | NA   | NA   |

# Children and adolescent (aged 5-19) nutrition status

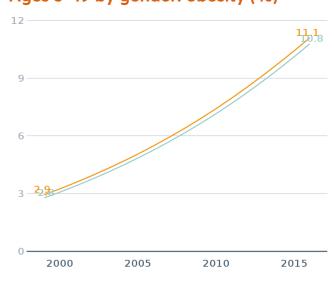

Ages 5-19 by gender: underweight (%)

Ages 5-19 by gender: overweight (%)

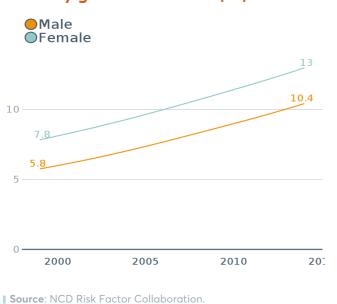

Ages 5-19 by gender: obesity (%)

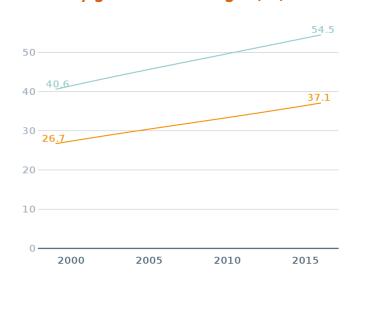

## **Adult nutrition status**

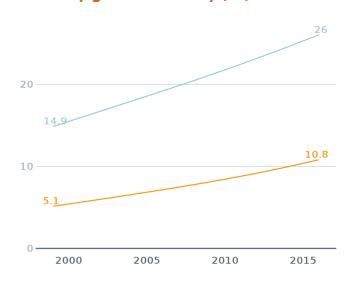

Adult by gender: diabetes (%)

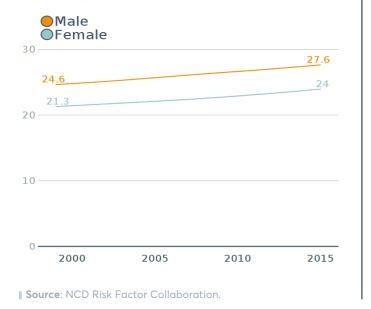

Adult by gender: overweight (%)

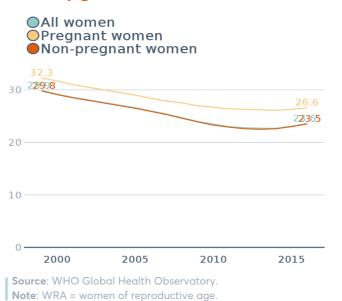

Adult by gender: obesity (%)

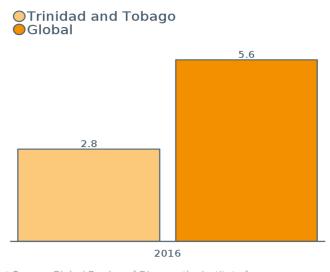

## Adult by gender: raised blood pressure (%) |

## Adult by gender: anaemia in WRA (%)

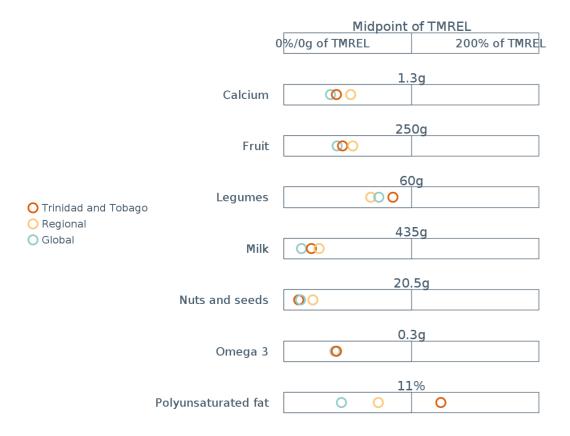

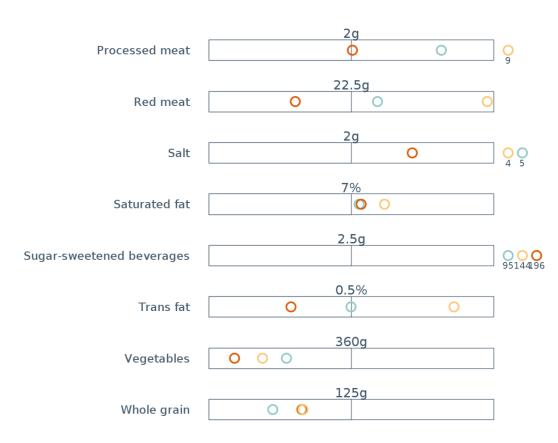

## Adult: sodium intake (grams per day)

Source: Global Burden of Disease, the Institute for Health Metrics and Evaluation.

## **Dietary needs**

Source: Global Burden of Disease, the Institute for Health Metrics and Evaluation. Notes: Men and women aged 25 and older. TMREL = theoretical minimum risk exposure level.

# Financial resources and policy, legislation and institutional arrangements

## **Development assistance**

No data

Sources: Development Initiatives based on OECD Development Assistance Committee (DAC)

Creditor Reporting System (CRS).

Notes: ODA = official development assistance. Amounts based on gross ODA disbursements, constant 2016 prices. Figure includes ODA grants and loans, but excludes other official flows and private grants.

## **National policies**

| Mandatory legislation for salt iodisation  | NA  |
|--|-----|
| Sugar-sweetened beverage tax               | No  |
| Food-based dietary guidelines              | NA  |
| Multisectoral comprehensive nutrition plan | Yes |

**Sources**: Global Fortification Data Exchange 2018; Sugar-sweetened data prepared using data from the NOURISHING database, academic references and market reports; FAO 2018; WHO Global database on the Implementation of Nutrition Action (GINA), 2nd Global Nutrition Policy Review.

## Targets included in national (nutrition or other) plan

| Stunting | Anaemia | Low birth weight | Child overweight | Exclusive<br>breastfeeding | Wasting | Salt intake | Overweight adults and adolescents |
|----------|---------|------------------|------------------|----------------------------|---------|-------------|-----------------------------------|
| No       | No      | No               | No               | No                         | No      | No          | Yes                               |

# Intervention coverage

| Coverage/practice indicator   |    | Male | Female | Year |
|---|----|------|--------|------|
| Children 0–59 months with diarrhoea who received zinc treatment   | NA | NA   | NA     | NA   |
| Children 6–59 months who received vitamin A supplements in last 6 months                                  | NA | NA   | NA     | NA   |
| Children 6–59 months given iron supplements in past 7 days  | NA | NA   | NA     | NA   |
| Women with a birth in last five years who received iron and folic acid during their most recent pregnancy | NA |      | NA     | NA   |
| Household consumption of any iodised salt   | NA | NA   | NA     | NA   |
